### 5 WHAT SETS PB-9010 APART FROM THE COMPETITION?

#### PRODUCTIVITY

- Blowing force is 18% greater than the competition
- Large fuel capacity is up to 56% more than the competition
- Massive 3.6 in. diameter blower pipes for maximum air flow

#### COMFORT

- Heavy-duty, wide, cushioned straps enable all day comfort
- Fan intake cools user's back in hot weather
- Ergonomic overmolded throttle handle (T Version) for maximum comfort

#### DURABILITY

- Large top-mounted pleated paper main filter + foam prefilter protects engine
- Wear ring extends to the life of the end tube
- Posi-loc™ keeps pipe connection secure for maximum durability
